From Bank Upon
Rumor

BAKERSFIELD, Oct. 18.—The strike of oil workers in the Kern county and Coalinga fields dragged its way to the middle of its sixth week today without marked change.

Walter J. Yarrow, adviser of the unions, was still absent from Bakersfield on an undisclosed mission. Fifteen deputy sheriffs, authorized yesterday, were named today and assigned to duty in the various fields and towns of the strike zone.

Sheriff Newell said he expected them to put a stop to the purported rumor of taking nonunion men to union headquarters and there subjecting them to questioning and demanding that they quit work.

PEACE TREATY WITH GERMANY AND AUSTRIA RATIFIED BY SENATE

Senator Johnson Speaks in Favor of
Ratification

WASHINGTON, Oct. 18.—The administration's peace treaty with Germany, Austria and Hungary was ratified by the Senate tonight, the vote on the first two being 85 to 20, or eight more than the necessary two-thirds majority.

The action completed the administration's peace program and brought a full state of peace with the principal enemy powers. Remaining now only are the formal exchanges of ratification except in the case of the Hungarian treaty as that government alone has yet to complete preliminary action.

Only three Republicans—Burah of Idaho, La Follette of Wisconsin and Norris of Nebraska, who, absent on account of illness, was paired against ratification, voted against the treaty. Fourteen Democrats supported the treaty while two more were paired in favor of ratification.

The treaty which was adopted without a recorded vote, authorized the United States shall not have representation on the allied reparations commission or on any other international agency without consent of Congress.

An effort to substitute the treaty of Versailles with the twelve League of Nations reservations was also voted down 85 to 20. The motion was made by Senator King, Democrat, Utah, and Senator Lodge, Republican, Maine.

Senator Johnson said he did not hold back from the ratification of the treaty because of the League of Nations reservations. He said the treaty was a masterpiece of diplomacy and that it was a masterpiece of diplomacy and that it was a masterpiece of diplomacy.

GIVE CHILDREN FIRE WARNINGS

Department Distributes Prevention Pamphlets

Hundreds of letters each containing ten fire prevention suggestions are being circulated among the Fresno city school children today by the Fresno city fire department. The letters were issued in an endeavor to minimize the city fire hazards and to lower the present excessively high city fire insurance.

The suggestions the letters are making to the school children are:

1. See that father is careful when smoking.
2. See that mother does not use gasoline in the house. (It is more dangerous than dynamite.)
3. See that big brother or father removes all rubbish from the attic, basement and garage.
4. Remind mother and sister that they must never leave the electric iron, even for a moment, when it is connected.
5. Have father inspect the fuse box and see that the fuses (electric safety valves) are all in perfect condition, and that electric drop cords or extension cords are not hooked over or around metal pipes, nulle, hooks, screws or bed rails.
6. See that everyone is careful about the use of gas. Many fires have occurred from this carelessness recently.
7. See that only safety matches are used at home and kept out of reach of little brother and sister.
8. See that no dry grass is left on yards or adjoining lots, which endanger the home, in case of fire. Keep the grass cleaned away within five (5) feet of building, fences or walks.
9. Call the attention of all members of the household to the danger of leaving carelessly about oily rags and mops and the placing of hot ashes in wooden boxes or barrels, and keep all combustible material in a safe distance from all heating appliances.
10. See that every one knows what to do in case of fire, how to call the fire department, and how to extinguish fires in one's clothing.

Three East Bakersfield
Families Rush Out
In Night Attire

Mother and Three Day
Old Babe Rescued by
Fire Chief

Special to The Republican.
BAKERSFIELD, Oct. 17.—(By
night attire, three East Bakers-
field families saved themselves
from possible death at an early hour
this morning. Mrs. O. E. Dabbs, a
mother of three, was rescued from
her home by Fire Chief W. E.
Van Meter and neighbors. Neither
the mother nor babe were injured.
The three homes in the 500 block
on Pacific street, between Third
and Fourth streets, were destroyed
by fire started from unknown origin
in a house at 538 Pacific
street, spreading rapidly to
the Dabbs home, and the homes of
Mrs. M. E. Taylor, mother of As-
stant Chief Perry C. Taylor, and
Mrs. M. E. Taylor, was not a total
loss. The aged woman's damask
and a broken crankshaft in a big pump
engine sent to the scene during the
difficulties of the fire fight-
ers and resulted in the destruction
of the Taylor home. The shaft broke
when the machine was within three
feet of the fire and the department
last 10 minutes while another piece
of apparatus was being summoned
from the engine house No. 1
at the corner of Tenth and K.
When the engine arrived,
the house in which the fire started
was being rapidly consumed.
The first house belonged to Glenn Miller
and was occupied by Dave Bond and
his family. Bond is said to be an
oil worker.
The houses were completely covered
by insurance. Fire Chief Van Meter
stated:

Bring Cattle From Mountain Pastures

SUCCESS, Oct. 16.—Wallace Mc-
Keenan brought his cattle down

week. Arthur Wardlaw and Mr.
Pratt have also transferred their
herds from the upper country to the
lower pastures. Jones and Shyden
and Joe Haugli are in the moun-
tains rounding up the last of their
cattle. The herds are in fine condi-
tion this season, the rain having
been plentiful in the hills and the
pastures luxuriant.

young fellows stepped out from a
dark shadow and thrust a gun at
him. He showed fight and as there

Porterville Schools Show Large Increase

PORTERVILLE, Oct. 18.—An in-

connection with Porterville's first
high school has been brought to light
by Mrs. E. DeWitt of the First Na-

principal of the first high school.
From a faculty of five teachers and
an enrollment of 35 students sixteen

growth of a faculty of 25 and an en-
rollment of 525. An interesting fact
also developed is that the first five
instructors of the school are still res-

Mr. DeWitt, Mrs. W. H. Shippey
(Miss Lola Hallinghouse), Mrs. Todd
C. Claiborne (Miss Christine Francis),

The Valley Bank Is 6 Months Old

—This condensed statement as of October 15th,
1921, shows one of the Most-Rapid Growths ever
enjoyed by any bank in the State of California.

With an increase in resources from \$1,292,747.50 on the opening
day to \$3,257,097.52 at the close of the first six months' business,
and an increase in deposits from \$537,901.23 to \$2,359,772.21 for
the same period, makes us feel that the showing is one without
equal and proves conclusively that another bank was needed
locally and one owned and controlled by local men.
The rapid increase in depositors in that length of time is
phenomenal. The first day we received 1645 depositors and today
we have 4042. Never to our knowledge has a new bank grown so
rapidly, and as one Los Angeles banker puts it, "We have done
five years' business in six months."
There must be a reason for this growth, and if service and co-
operation with our customers is the reason, then we will do 10
years' business in one year, for service and co-operation is our
watchword.

BAKERSFIELD MEN CONSIDER WATER REPORT

Engineers Say Present
Cost Will Exceed
\$1,000,000

Conversion to Gravity
Supply Later Is
Contemplated

BAKERSFIELD, Oct. 18.—According to a report filed by Olmstead & Gillen, engineers of Los Angeles, the municipal water system for Bakersfield, the cost of a pumping system along the lines of those now in existence but expanded to meet the present needs of the city will be in the neighborhood of \$1,150,000, and the subsequent conversion of the system into a gravity system, fed by the waters of Kern river, will be \$2,500,000. The latter figure does not include the acquisition of water rights, the cost of which will be substantial.

The report was submitted at a luncheon meeting with members of the Civic Commercial association, city councilmen and others present. The engineers propose, should their report find favor, that no election be called for the issuance of \$1,150,000 bonds, and that thereafter a vote be fixed upon the conversion of the electric water company and of the Bakersfield water company now supplying old Bakersfield and East Bakersfield, respectively, and that these systems be purchased by the city, to be included in the expanded system proposed by the engineers. Tentatively the experts have estimated the purchase price of the present system at \$451,900.

After 1930 no tax will be required in connection with the establishment and maintenance of the municipal pumping system, and the profit in 1935 will be \$30,000, the report said, all this pending a gravity water supply.

The committee appointed to consider the report of the engineers and named subsequent to the meeting by President L. V. Olcott is as follows: J. A. Hughes, chairman; Alfred Harrell and C. W. Newberry, members; the Civic Commercial association, and two councilmen to be chosen by Mayor E. L. Houghan later.

The state grange will be in session from October 18 to 22.

Children Have Own Library Bakersfield Claims Unique Building Success of Plan Is Evident

BAKERSFIELD, Oct. 18.—Bakersfield enjoys the distinction of being one of the few cities in the United States which has a library for children only. In most libraries of any size, there is a room or department set apart for the little folks, where they get what time and attention can be spared by the librarians from the concerns of the adult patrons. But the young people of Bakersfield have the privilege of going at all times to a library where they are as welcome and as much at home as in their familiar school rooms.

When the library was originally given to the city by Truston Heale, the attorney, in 1900, under the charge of Miss Sarah E. Redinger, present city librarian, this one building was of sufficient size to serve all the reading public, children and adults alike. But as the city has grown, new books have been added to the library collection every year, and many new patrons have sought the privilege of using them, until in 1915 a necessary division was made. The adult collection was moved to the city hall, and after some discussion, it was decided to use the Heale building for a children's library, and in November of that year it was formally opened for that purpose.

There has been a never-ending increase in the circulation of children's books since that time. Under the old regime, 25 to 30 children's books circulated in one day was a large number. A week ago today, 48 volumes went out of the little library, according to Mrs. Siddle Nielsen, who is in charge of the branch. The average daily circulation is about 250, while the total circulation for the month of September, as shown in the recently published report of the city librarian, was 5317.

"VISIT YOUR LAUNDRY WEEK"

Everywhere, laundries are inviting the public to visit their plants during "Visit Your Laundry Week", to entertain them and demonstrate to them that the modern laundry is really an important part of every community. And here in Fresno—Fresno's biggest, most modern laundry has made preparation to receive and entertain you in a way that will be pleasantly instructive and long remembered.

We are going to start where a bundle of soiled clothing would enter the laundry, and lead you to every mechanical unit that has to do with the cleansing of them.

—And as we go from unit to unit attendants will explain each one in detail, to give you a thorough understanding of the methods used in a modern laundry. Last, but not least, we will lead you to the place where the soiled clothing has "gone the rounds" and is immaculately clean and ready for delivery. Then we are going to thank you for the pleasure of your attendance—and ask you to come again.

REMEMBER THESE DATES
Monday, October 24th to Saturday, October 29th, is "Visit Your Laundry Week". Demonstrations will be held here every day from 1:00 till 4:45—and a special program has been arranged for Thursday evening from 6:00 until 10:00.

If you can't arrange to attend the daytime demonstrations, DON'T MISS THE SPECIAL THURSDAY EVENING PROGRAM.

THE SONG OF THE COYOTE
BY "INDIAN" MILLER

Coyote heard a cricket singing and he listened long. He said, "That is a short song, indeed; kurit, kurit, kurit. Forever just kurit. Who does he entertain? Perhaps he likes it himself. I like it not." So he moved closer and listened; and then he moved closer again. Finally he found Cricket and swallowed him, saying, "That is the end of your song."

And as Coyote trotted along he heard a little tree-frog singing in a bush. Tree-frog sang so much like the cricket that Coyote soon tired of listening. Then he listened and looked and listened and looked until he saw Tree-frog hidden behind a piece of bark; and as he swallowed Tree-frog he said, "That is the end of your song."

As Coyote trotted on he heard a Jarfy singing. Some call him Locust; but he is only Jarfy. He, too, repeats his song; and as Coyote listened it seemed that there was no end of it. Jarfy opened his eyes wider and he saw Coyote; and he thought, I will fool him. So Jarfy slipped out of his skin; and when Coyote swallowed it, he said, "That is the end of your song." Then Jarfy laughed and said, "That was only an empty husk." Then, lighting on a high branch he gritted his teeth and

taunted Coyote, who, after several vain attacks, trotted away greatly exasperated.

Coyote was not a great singer himself in those days; so he went to a lone some place to practice. Timber-wolf heard him and could not sleep. Exasperated, he sought Coyote and said, "That song is a torture to me; can you not finish it?" Coyote said, "I must sing something or I will be unhappy." Timber-wolf said, "I will teach you my song; but you must learn when to stop, evenit." Coyote never learned to sing the wolf-song nicely, for he stutters; but it is much better than the old coyote song. Coyote still stutters and stutters when he starts to sing. He can stop all right; but he has difficulty in beginning.

Poor Coyote! How handicapped he is! He cannot sing, for he stutters. Many business organizations are like him. They would build their product better, but are handicapped. Lack of finance or other causes hinder them. On the contrary, with the makers of Savage Tires every source is at command for the building of a superior article. The new Savage Cord demonstrates their determination to make the best tire on the market. It is Built to Excel.

If arrangements are carried out as discussed at a meeting of committee chairman held yesterday at noon at the Commercial club, the Rotary club's trip to Porterville to deliver the charter to the new Porterville club will be a success. The trip is to be made Friday evening, October 22.

One of the big features for the occasion is the chartering of a special train to carry the 100 Rotarians who are expected to attend from Fresno. While arrangements for the train have not yet been completed, negotiations with the Santa Fe are open. The train is expected to leave Fresno between 3 and 4 o'clock in the afternoon and return before midnight.

To bring out an unusually large attendance, Hugo Allard, general chairman of the committee, has appointed two attendance and transportation committees. Each team will be responsible for built the club on the occasion. A brisk competition between the two teams for the honor of having the best attendance is expected.

The attendance team captains are George M. Evans and Miles Humphreys. The transportation team captains are Edward H. Tye, George H. Faria, L. J. Allen and Robert W. Fokian. The transportation team are P. J. Hargland, H. E. Courtwright, R. O. Daxson and Clyde Davenport.

Charges Husband Was Intoxicated; Asks for Divorce

Charging that her husband, L. H. Farmer, Selma really was intoxicated practically all of the time from November, 1920, to January, 1921, Ella Farmer yesterday brought suit for divorce in the superior court through her attorney, Herbert Stowell.

The complaint charged extreme cruelty. Mrs. Farmer states in the complaint that on one occasion she prepared breakfast for her husband. He looked at it, she states, and then threw it in a garbage can, and proceeded to prepare his own breakfast in the identical manner which she had prepared it.

Another act of cruelty cited by Mrs. Farmer is that on one occasion her husband threatened to kill her, grabbed her by the nose and twisted it, kicked her and then pushed her away from him. The complaint states that community property is valued at \$200,000 and that Farmer has an income of \$12,000 a year. She asks \$500 a month alimony pending the trial of the action and \$500 a month permanent support. She also asks \$2000 attorney's fees.

The Farmers were married February 27, 1919, and separated on October 13, 1921.

Says His Name Is Rip Van Winkle; Denies Sleeping

Announcing himself as "Rip Van Winkle," Edward Pickett, a member of the jury which convicted Leo Yokel of murder in the first degree, who was said by the defense attorneys to have been asleep while Judge R. L. Strother was reading his instructions, appeared yesterday at the courthouse to make an emphatic denial of the allegation.

Pickett appeared at the office of Chief Deputy Sheriff Winning yesterday morning. Winning stated that he did not recall the identity of the gentleman, Pickett, announced that he was "Rip Van Winkle," and that he was the man accused of having been asleep while the court was instructing the jury, Winning said.

Pickett denied that he was asleep. He stated that he would make an affidavit to that effect and that he was "mad clean through." When pressing a motion for a new trial for Vicks, Attorneys M. K. Harris and Herbert McDowell presented affidavits to the court contending that the juror was asleep. District Attorney B. W. Gearhart, in opposing the motion, presented affidavits signed by himself, O. L. Dwyer, who was retained to prosecute the case by the family of Pook Kee, and three other jurors. These affidavits tended to show that the juror was not asleep.

Judge Strother denied the motion for the new trial, stating that he

Attractive Pack of Valley Fruit Is on Display

One of the handiest packs of San Joaquin Valley fruits put out this season was on the desk of Secretary C. A. Murdoch of the California Associated Raisin company yesterday morning. It came from W. C. Cook of Clovis.

The pack featured raisins, and was finished in an attractive dress, and enclosed in a beautiful redwood box. The cover bore the legend, along with a sketch of a group of giant trees, "Sun-kissed raisins and orchard's gold, in giant redwood centuries old."
